

# Transit Academy Citizen's Academy

## Objective

To identify the planning and design characteristics of successful TODs

## Tactics

- Identify successful TODs throughout the United States.
- Analyze the uses, design elements and other characteristics of each to determine what makes them successful.
- Identify elements that are common between all of the developments and create a list of elements for a successful TOD.
- Implement the factors identified above into the design of a potential TOD project.

## Desired Outcome

Design of a potential TOD project that includes all of the elements for a successful TOD that can be used to market to potential TOD developers

## Measure of Success

I am able to participate in the design of a TOD project that is something to be proud of...
