

Bike For Life

Christine Garcia

d of finding yourself in traffic?

Or would you prefer to start your day like this?

Tired of spending time in the gym...

But you want to lose weight ?

Don't worry about complicated exercise machines...

Just ride a bike!

Tired of paying for parking?

Don't be a clown...

Just ride a bike!

If you think it's too far...

The bus will help you share the ride!

No need for spandex...

Just ride as you are!

Or, ride in style.

It's simple;
biking is a great way to experience
nature, stay healthy, and save
money.
