

Transit Alliance

The Movement to educate the region's citizens about the benefits of transit.

Transit Alliance is a public private partnership of businesses, governments and membership organizations. Our diverse coalition believes:

- TRANSIT makes our region the best place in the world to live;
- TRANSIT provides the best chance for economic success for all people; and
- TRANSIT enhances our outstanding quality of life and lifestyle.

Transit Alliance: Building Leadership Capacity

The history of the Transit Alliance spans almost 14 years of educating Metro Denver citizens about the need and benefits of a balanced transportation system. Throughout our history we have challenged leaders, stakeholders and citizens to understand lessons learned from other cities across the country and around the globe. Our mission has always been one of providing education that goes beyond the ballot box; rather helping citizens understand the community and health benefits inherent in a metro-wide transit system.

Transit Alliance: We Educate & Motivate to Keep You Connected

Annual Fall Forum and EXPO:

Transit Alliance provides a regional forum for diverse groups and interests to develop agreement on transportation strategies and solutions. This annual program celebrates the successes of transit and transportation in our region and provides an opportunity to acknowledge outstanding leadership. The educational program is combined with an EXPO that hosts local and national vendors to promote products that support Livable Communities.

Citizens' Academy:

The Transit Alliance Citizens' Academy is an emerging leader's education program to train community leaders, agencies, governments and/or organizations on how to promote and educate about the quality of life in our communities on issues related to transit, transportation and community development. The cornerstone of this unique program is the participants' commitment to take their new knowledge and put it in action. Participants spend a portion of each of the seven weeks designing their personal action plan to implement upon completing the Academy.

Biennial Engagement Workshop:

Transit Alliance began a Citizens' Academy in 2007 and now has 380 graduates of the program. These movers and shakers are scattered across the region and serving in leadership positions at all levels of community building. This Alumni gathering brings together past participants of the Academy to join with Transit Alliance Partners and key stakeholders and discuss how we take the Transit Alliance movement further. Combining a featured guest speaker and facilitated group discussions about the future of our region allows us to reach the "Nexus" of where transit meets the livability components of building, developing and maintaining sustainable communities.

TOD Junkies Socials:

These networking events attract 200 of the region's leading experts, developers, elected officials, and business professionals to celebrate the future of rail transit and transit oriented development. Held in April, August and December, the TOD Junkies are a must-attend-event.

Transit Alliance: Join the Movement

By harnessing the mobility that only transportation options provide, we can serve all of our citizens, enhance our economic growth and foster healthy lifestyles. Transit Alliance helps generate strategies, new ideas and policies that promote, protect and enhance the creation of a balanced multi-modal transportation system. Transit Alliance is a 501 (c)3 tax-exempt, non-profit organization.
